CLASS 3 IMPACT RESISTANT PERFORMANCE SHINGLES<sup>5</sup>

IKO PERFORMANCE SHINGLES WITH ARMOURZONE®

BEAUTY you can see. QUALITY you can feel. PERFORMANCE you can trust.

As time goes by, you and yours will celebrate life's special occasions. You'll weather its many storms too. But when the wind whistles and blows; when the rain pours down and the snow piles up; when thunder and lightning rage outside, you'll find comfort in knowing you've provided your family safe shelter.

Shelter is among our most basic of human needs. Climate experts\* have confirmed that severe weather events such as straight-line winds, hurricanes, tornadoes, hail and thunderstorms occur more often, and in more places than ever before.

Your roof is your home's first line of defense against the ravages of Mother Nature, as well as normal, everyday temperature extremes, high winds, rain, snow and even flying debris. When it's time to replace your roof, don't take anything for granted. You want the peace of mind that comes from knowing your family is well-protected, safe and comfortable. So, don't settle for less than IKO Nordic or Dynasty Performance class shingles.

At IKO, four generations of family owned-and-operated experience go into everything we make. We go to extremes to ensure our roofing products will perform and protect your home and family for years to come. Because at IKO, it's not just roofing. It's roofing elevated.

\*The following studies and sources attest to the rise of severe weather • A 2013 climate analysis from Stanford University forecasts global warming to drive an increase in severe thunderstorm risk in the U.S. • The 2018 3M Economic Forecast for the U.S. Asphalt Roofing Study with data from the NOAA/National Weather Service Storm Prediction Center, reports the 18-year average for high-winded storm events is 24,751. • The National Geographic website cites an increase in all global weather events since 1980.

# Nordic™

## Quite possibly THE BEST laminate asphalt shingle that money can buy.

When it comes to protecting your family, nothing but the best will do. We get it. IKO Nordic Performance shingles provide the ultimate in high-wind and hail protection, for your total peace of mind. No other laminated asphalt shingle offers the combination of heavy asphalt coverage, high-wind uplift prevention and highly effective impact resistance that Nordic does.

As weather patterns become more unpredictable, Nordic presents your best asphalt shingle option, no matter where you live. To achieve Nordic's superior weather resistance, we apply our special polymer-modified asphalt coating to an ultra-durable fiberglass mat. This advanced polymer coating is exceptionally pliable compared to regular-duty shingle asphalt and contributes to giving Nordic exceptional strength and resilience, high-wind resistance and added flexibility for application in cold temperatures.

Nordic shingles also outperform because they boast IKO's ArmourZone® — an enhanced nailing area that features a specially designed, tough reinforcing strip that offers incredible nail-holding power. Nordic shingles come with a 130 mph (210 km/h) limited wind warranty<sup>1</sup>. Plus, IKO's FastLock® sealant helps resist wind uplift and potential water infiltration.

To top it all off, Nordic shingles come in gorgeous hues created by combining our advanced high-definition color-blending technology with deep shadow bands for added dimension. For the ultimate in form and function, you simply can't make a better, smarter choice: IKO Nordic.

The "Power of Polymer" means that this coating acts like a shock absorber, qualifying Nordic shingles for a **Class 4 impact resistance rating**.<sup>5\*</sup> That's important because Class 4 is the highest such rating you can get for residential asphalt shingles.

\*This is not a guarantee of impact resistance against hail. Damage from hail is not covered under the limited warranty. See full details.<sup>5</sup>

# Dynasty®

## Mother Nature can howl all she wants.

Lesser shingles may tear or blow off when Mother Nature starts to howl, but IKO Dynasty holds on tight. Our oversized Dynasty shingles feature IKO's ArmourZone®. It's a 1-1/4" nailing area, made with a tough reinforcing woven band for incredible nail-holding power. In high winds, it helps shingles resist nail pull-through and shingle blow-off so well that they carry a 130 mph (210 km/h) limited wind warranty. In qualifying Dynasty for a Class 3 impact resistance rating,<sup>5\*</sup> we've further elevated the peace of mind that comes from knowing your home and family are well protected against Mother Nature's fury.

IKO Dynasty shingles qualify for a **Class 3 impact resistance rating**.<sup>5\*</sup>

This may enable you to obtain a reduction in your homeowner insurance premium, if available.<sup>5\*</sup>

\*This is not a guarantee of impact resistance against hail. Damage from hail is not covered under the limited warranty. See full details<sup>5</sup>.

At the core of every Dynasty shingle is a durable fiberglass mat. This, along with its thick asphalt coating, makes it one of the heaviest shingles in its class. Dynasty's weight helps the shingles lie flat and stay put on your roof, thwarting the wind from prying them up. In addition, we apply IKO's proprietary FastLock® sealant along the bottom edge. When this special adhesive is activated by the radiant heat of the sun, it creates a super-strong bond to help shingles seal down to further defeat the wind.

To protect its asphalt and keep it performing its best, Dynasty is coated with colored granules. IKO's exclusive, advanced color-blending technology enables you to choose from high-definition hues to complement your home's style, enhance curb appeal and be the envy of the neighborhood.

### BEAUTIFUL HI-DEF COLOR BLENDS

IKO's Dynasty Performance shingles are produced in a wide array of unique color blends. To discover the exact color availability in your region, visit [IKO.com](http://IKO.com) today.

# Performance Elevated.

IKO Performance-class asphalt shingles are industry heavyweights because the more we put into them, the more you'll get out of them. Here's what elevates the performance of Nordic and Dynasty shingles.

**Performance Begins at the Core.** IKO Performance Shingles offer superior protection against wind uplift and water infiltration. Performance-class shingles are among the industry's heaviest thanks to a durable fiberglass mat covered with a thick coat of asphalt.

## Impact Resistant Shingles

**IKO Nordic Shingles** Feature a Class 4 impact resistance rating.<sup>5\*</sup>

Their polymer-modified asphalt coating acts like a shock absorber.

**IKO Dynasty Shingles** Feature a Class 3 impact resistance rating.<sup>5\*</sup>

\*This is not a guarantee of impact resistance against hail. Damage from hail is not covered under the limited warranty. See full details.<sup>5</sup>

**Effective Sealing.** IKO's proprietary FastLock® sealant is among the industry's best for resisting wind uplift in hot or cold weather. When activated by the sun's heat, it gets extra-tacky and creates a strong bond to help ensure maximum protection against wind uplift and blow-off.

**Granule Coverage and Adhesion.** We quarry, crush and colorize our granules to exact specifications. The granules' main purposes are to protect the underlying asphalt against damage from the sun's harmful rays and to help inhibit the natural weathering process. Our exclusive, advanced color-blending technology creates beautiful, high-definition color blends you'll love to see on your home.

**Laminate Adhesive.** Five strips of our tough, construction-grade adhesive are used to laminate the shim to the tooth.

**Built-in Algae Resistance.** Colorfast algae-resistant granules help inhibit the growth of blue-green algae, which can cause unsightly black streaks, stains or discoloration.

**Nail-Holding Power.** Our Performance shingles are reinforced with IKO's "ArmourZone®." The 1 1/4-inch wide nailing surface for correct nail placement, with a tear-resistant, woven band on the back, provides even more fastening strength over a wider surface. Nails applied in this area are optimally positioned to help resist nail pull-through and shingle blow-off, even in high-wind conditions.

THE IKO ADVANTAGE<sup>3,4</sup>

Limited Warranty <sup>1</sup>	Limited Lifetime <sup>2</sup>	Length	40 7/8 in (1,038 mm)
Iron Clad Protection <sup>1</sup>	15 Years	Width	13 3/4 in (349 mm)
Limited Wind Warranty <sup>1</sup>	130 mph (210 km/h)	Exposure	5 7/8 in (149 mm)
Blue-Green Algae Resistant <sup>1</sup>	Yes	Coverage per Bundle	33 1/3 ft <sup>2</sup> (3.1 m <sup>2</sup> )

ASTM D3462, ASTM D3018, ASTM D3161 – Class F, ASTM D7158 – Class H, ASTM E108/JUL 790 – Class A, FM 4473 – (Class 4<sup>5</sup> - Nordic, Class 3<sup>5</sup> - Dynasty)

**NOTE:** Product and color availability may vary by region. Products with Miami Dade NOA and FBC product approval listings are available. Meets requirements of the Texas Department of Insurance. Please contact IKO for details. <sup>1</sup>See Limited Warranty at IKO.com for complete terms, conditions, restrictions and application requirements. Shingles must be applied in accordance with application instructions and local building code requirements. <sup>2</sup>"Lifetime" means the period of time commencing on the date of the completion of the installation of the shingles on the building and continuing so long as the owner or the first transferee owns the building on which the shingles were installed. <sup>3</sup>All values shown are approximate. <sup>4</sup>Products are developed with reference to these standards. <sup>5</sup>This impact rating is solely for the purpose of enabling residential property owners to obtain a reduction in their residential insurance premium, if available. It is not to be construed as any type of express or implied warranty or guarantee of the impact performance of this shingle by the manufacturer, supplier or installer and damage from hail is not covered by the Limited Warranty. IKO recommends the use of its Class 4 impact resistance rated Hip and Ridge cap shingle in conjunction with the use of Class 4 impact resistance rated shingles, and the use of no less than its Class 3 impact resistance rated Hip and Ridge cap shingle in conjunction with the use of Class 3 impact resistance rated shingles. For further detail concerning the FM 4473 standards, visit the FM Approvals website.

Note: 3 bundles = 1 full square = 100 sq ft coverage

Extreme BEAUTY you can see. You'll love how IKO Nordic and Dynasty Performance laminated shingles can enhance the appearance of your home.
